Summary of 2010-2012 Public Outreach Efforts

As a Center for Independent Living we are required to provide Outreach to unserved and underserved populations. In doing so, staff attends community meetings within our eight county service area and any opportunity that arises allowing for staff to sit on committees or boards for such organizations and/or agencies.

In providing outreach to our communities we are in contact with School Counselors, Public Health Offices, English as Second Language Classes, area churches, MO Extension Offices, Catholic Outreach Ministries, area Diversity Networking Groups, United Migrant Workers
area Hand in Hand Ministries organization and our Annual Multicultural Fair held in our community on Martin Luther King, Jr. Day. In 2013 we logged nearly 400 hours in time spent providing outreach to our community to reach underserved and unserved populations.

In addition, empower: abilities conducts a Community Needs Assessment each year to gauge community needs and gaps in service via community input. We distribute the survey via a web link and in print format.
G. Language Assistance Plan

empower: abilities Limited English Proficiency Plan

This limited English Proficiency (LEP) Plan has been prepared to address empower: abilities responsibilities as a recipient of federal financial assistance as they relate to the needs of individuals with limited language skills. The plan has been prepared in accordance with Title VI of the Civil Rights Act of 1964; Federal Transit Administration Circular 4702.1B, dated October 1, 2012, which states that the level and quality of transportation service is provided without regard to race, color, or national origin.

Executive order 13166, titled “Improving Access to Services for Persons with Limited English Proficiency,” indicates that differing treatment based upon a person’s inability to speak, read, write or understand English is a type of national origin discrimination. It directs each federal agency to publish guidance for its respective recipients clarifying their obligation to ensure that such discriminations do not take place. This order applies to all state and local agencies which receive federal funds.

Service Area Description:

Empower: abilities offers choices and empowerment for individuals with disabilities in the Missouri counties of Christian, Dallas, Greene, Lawrence, Polk, Stone, Taney and Webster.

Empower: abilities has developed this LEP Plan to help identify reasonable steps for providing language assistance to persons with limited English proficiency who wish to access services provided by empower: abilities. As defined in Executive Order 13166, LEP persons are those who do not speak English as their primary language and have limited ability to read, speak, write or understand English. This plan outlines how to identify a person who may need language assistance, and the ways in which assistance may be provided.

In order to prepare this plan, empower: abilities undertook the four-factor LEP analysis which considers the following factors:

Four Factor Analysis

1. The number and proportion of LEP persons eligible to be served or likely to be encountered in the service area:

According to the OTO LEP Plan, additional languages for OTO to be aware of, as certain populations grow, include German, French (including Patois and Cajun), Chinese, and Russian.
After English and Spanish, these are among the top languages that are spoken at home for the population 5 years and over, regardless of the ability to speak English.

The OTO developed a survey with questions for agencies that provided services to Local LEP persons and to determine what services are most critical to the local LEP population. The OTO mailed 40 invitation letters to local educational organizations, public agencies, and churches asking for each group to participate in the 16 question LEP survey. Surveys were collected from February 15 through March 8, 2013. The survey responses included two organizations requesting removal from future mailings, and seven completed surveys. Two organizational addresses were no longer valid and are indicated in Appendix B.

Survey respondents stated that they work with LEP persons that speak languages that include Chinese, French, Korean, Japanese, Portuguese, Romanian, Russian, Spanish, Thai, and most other languages. There was a wide range in the ability to speak English from beginner to proficient. The 2010 census data for the OTO area indicates an increased population growth in most groups. The presence of individuals 5+ year of age, speaking English less than very well in Springfield area has grown to 3,094 and the OTO area to 4,493 per Table 1 data. The two languages with the largest increase have been Chinese and German as shown in Appendix A, but still under the Safe Harbor threshold.

A significant majority of people in the empower: abilities service area are proficient in the English language.

Based on 2010 Census data, 1.8% of the population five years of age and older speak English “less than very well” – a definition of limited English proficiency
